EXPERIENCE

Product Manager

MetLife

05/2019 - Present Tokyo, Japan

MetLife Campus - a learning platform for insurance agents

- Increased engagement by 25% by introducing a mobile-first, micro-learning platform.
- Ideated and executed a personalized recommendation engine for agents, increasing revenue by 3% (\$XX M).
- Defined roadmap and cloud strategy to reduce the tech debt involved in the product.
- Instilled a culture of experimentation & shifted the team's focus to outcomes over outputs.

Cloud Product Manager

Nissan

02/2018 - 04/2019 Tokyo, Japan

Kamereon Cloud - a cloud platform for nissan's connected vehicles

- Scaled the cloud platform to 3 countries and on boarded more than 300 developers.
- Lead the automation efforts and reduced the time to update the cloud platform by 40%.
- Improved the developer experience significantly through periodic user interviews and surveys.

Co-founder

Entaag

10/2015 - 06/2016 Chennai, India

Entaag - an entertainment platform for buses

- The entertainment platform is facilitated by sophisticated local WiFi that can be accessed by smartphones.
- Installed in 30 buses and acquired around 2K users.

Cloud Architect

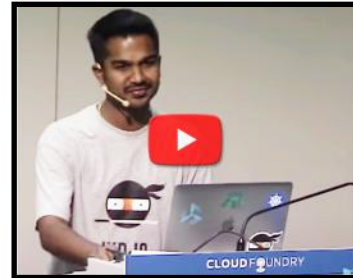

Fuji Xerox

07/2015 - 12/2017 Yokohama, Japan

- Architected cloud solutions (AWS & GCP) to Fuji Xerox's document portal.
- Introduced DevOps culture to the team and built a continuous deployment chain for FujiXerox's projects using Ansible, Bamboo and Code Deploy.
- Built a react native based mobile app that was completely powered by Serverless, GraphQL and NoSQL database.
- Tools/Technologies Used: AWS, GCP, reactJS, react native, redux, graphql, nodeJS, mongoDB.

PUBLIC SPEAKING

Represented Nissan for the cloud foundry conference at Basel, Switzerland
